NEW RAMBLER ROSE—HELENE

An admirable variety.

WE take pleasure in offering the following novelties and specialties. Some of the novelties have been tested on our Trial Grounds, and we can confidently recommend them to our patrons. Others are quite new, and we have not yet been able to test them sufficiently to describe them. These are listed with the description of the raiser or originator. We consider all worthy of trial. We also offer a few specialties which seem worthy of special attention.

OUR GENERAL DESCRIPTIVE CATALOGUE IS THE MOST COMPLETE PUBLISHED, AND WILL BE MAILED ON REQUEST TO ALL WHO DESIRE IT.

OFFICE OF THE MOUNT HOPE NURSERIES

NEW AND RARE VARIETIES OF FRUITS.

Doyenne du Comice Pear—An old variety. Large and handsome, and one of the finest of late Autumn pears. \$1.00.

Emile d'Heyst Pear—A rare and valuable old variety; fruit large, pyriform, and of the best quality; tree a poor grower, but a good bearer. Ripens in early winter, and keeps well. \$1.00.

Gans Seedling Pear—A fine early pear, ripening just after Tyson and a week to ten days before Bartlett. It is large and handsome, pyriform in shape, color yellow, with slight brownish cheek; flesh fine grained, melting, very juicy, sweet, sugary, quality very good. It shows no tendency to rot at the core. Tree a vigorous grower. We consider it a valuable addition to the list of good early pears. \$1.00.

Pierre Corneille Pear—Fruit large and handsome, pyriform. Skin yellow, tinged with brown on parts exposed to sun; flesh fine, melting, juicy, with a rich aromatic flavor, first quality. Ripens in October. A valuable new pear. \$1.00.

Precoce de Trevoux Pear—Medium to large, handsome, shape of Angouleme; skin yellow, marbled with red; flesh tender, juicy; ripens after Giffard and two weeks before Bartlett. A desirable early pear. \$1.00.

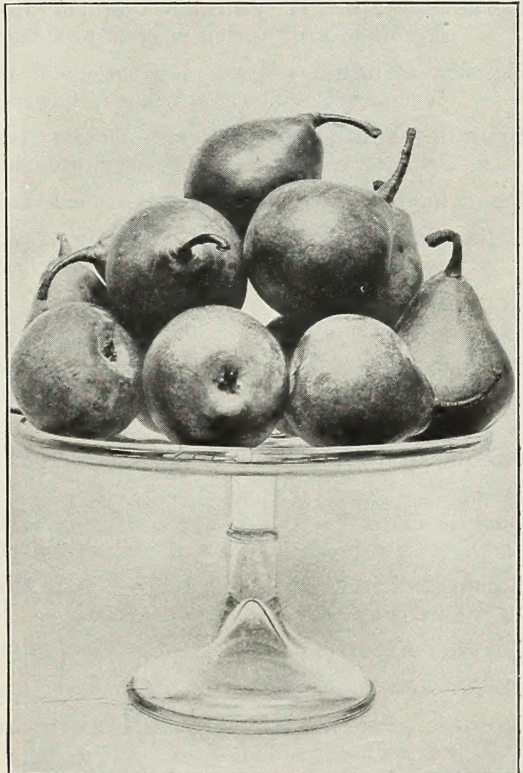

Climax Plum—A cross of Simonii and Botan; very large, heart-shaped, skin thick, deep dark red; flesh yellow, firm, flavor sweet, rich; ripens extremely early, before any other good plum. \$1.00.

Comet Currant—An English variety described as being very large in bunch and berry. Color brilliant crimson, flavor mild and pleasant. Valuable for dessert. 25 cents.

Moore's Ruby Currant—Berries very large, bunch long, excellent quality. A moderate grower, but very productive; one of the best currants. 25 cents.

Perfection Currant—A fine new currant, originated by Charles G. Hooker, and obtained by crossing Fay's Prolific with White Grape. Berry very large, larger than Fay's, clusters averaging longer, color a beautiful bright red, flavor rich, mild sub-acid. A great bearer, ripening about with Cherry and Fay's. This new currant was awarded the Barry Gold Medal of the Western New York Horticultural Society, for a fruit of superior merit. \$1.00 each, \$10.00 per dozen.

White Imperial Currant—A very large and handsome white currant, of best quality. 25 cents.

Gans Seedling Pear

- Charlton Grape**—A very promising new variety. It is a cross between Brighton and Mills; bunch medium to large; berry globular, medium to large; color red, flesh tender, melting, high flavor; season early. Awarded Barry Gold Medal, also Wilder Medal. \$2.50.
- McKinley Grape**—A new white grape, described as being about the same size as the Niagara, and ten days earlier; bunch large and compact; vine a strong grower and productive. \$1.00.
- President Strawberry**—A new strawberry, described as producing berries of the largest size and finest quality. Plant strong and vigorous, season early to late. \$1.00 per 10.
- Haymaker Raspberry**—A new purple raspberry, described as being very large, quite firm, and of good quality; plant very vigorous. \$1.00 per 10.

NEW ORNAMENTAL TREES, SHRUBS, and PLANTS.

- Acer Platanoides Globosum**—GLOBE-HEADED NORWAY MAPLE—A distinct and beautiful variety of the well-known and popular Norway Maple, having a perfectly rounded head. Worked on standards. \$2.00 each.
- Acer Grandidentatum**—A fine tree of pyramidal habit, and with deeply lobed leaves. \$1.50.
- Ailanthus Glandulosa Pendulifolia**—A graceful tree with very long, drooping leaves; without disagreeable odor. \$1.00.
- Cerasus—James H. Veitch**—A form of Japanese cherry, producing deep rose-pink double flowers in early spring in great profusion. \$2.00.
- Persica Pendula**—A drooping variety of the flowering peach; habit like the Japan Weeping Rose-flowered Cherry; flowers double white. Worked on standards. \$2.00.
- Prunus Padus Foliis Aureis**—GOLD-LEAVED BIRD CHERRY—A fine tree with golden foliage; retains its bright color throughout the season. \$1.00.
- Quercus Pinnatifida**—A new Japan oak with large and handsome leaves. \$2.00.
- Salix Thurlowi Pendula**—THURLOW'S WEEPING WILLOW—A graceful weeping tree with leader of erect growth and side branches drooping. Hardy. 50 cents.
- Comptonia Asplenifolia** (SYN. MYRICA ASPLENIFOLIA) SWEET FERN—A beautiful native shrub, with scented, fern-like foliage. 35 cents.
- Cornus Stolonifera Lutea**—YELLOW-BRANCHED DOGWOOD—This shrub has bright yellow bark in winter, and is particularly effective in shrubberies planted with the Red-branched Dogwood. 35 cents.
- Cornus Macrophylla**—LARGE-LEAVED DOGWOOD—One of the most beautiful of Cornels, growing to the height of 50 or 60 feet in Japan; foliage large and fine. \$1.00.
- Cornus Baileyi**—A shrub of erect growth, with reddish branches. The foliage is highly colored in autumn, and the wood in winter is dull red. \$1.00.
- Cornus Viridissima**—GREEN-BRANCHED DOGWOOD—Of dwarf habit; leaves, branches and fruit of a green color. \$1.00.
- Corylus Americana**—AMERICAN HAZEL—The well-known hazel nut. 50 cents.
- Corylus Avellana Pendula**—WEEPING FILBERT—Branches droop gracefully. \$1.00.
- Cydonia Japonica Sargentii**—A distinct variety of dwarf, spreading habit, bearing orange scarlet flowers in profusion. \$1.00.
- It is a charming plant for the rock garden, and this season it was greatly admired here when in bloom.—*The Garden*, London.
- Cydonia Japonica Simonii**—Flowers single, dark crimson, distinct. \$1.00.

LEMOINE'S NEW HYBRID DEUTZIAS.

THE FOLLOWING INCLUDE SOME OF THE CHOICEST INTRODUCTIONS OF MR. LEMOINE. ALL ARE VALUABLE.

Deutzia Discolor Floribunda—Panicles compact, flowers porcelain white, with the reverse of petals tinted rose; very floriferous; described as being one of the best hybrids. \$1.00.

Deutzia Discolor Grandiflora—Flowers large, white, slightly tinted with rose, with the reverse of petals rose, as well as buds. \$1.00.

Deutzia Gracilis Campanulata—Flowers large, numerous, pure white, campanula shaped. \$1.00.

Deutzia Gracilis Carminea—Flowers medium size, delicate rose, with the reverse of petals deep crimson. \$1.00.

Deutzia Gracilis Rosea—Flowers abundant, opening in the form of a bellflower, with the exterior of a delicate rose color. \$1.00.

Deutzia Gracilis Venusta—Flowers very large, pure white, resembling a miniature Azalea flower. \$1.00.

Deutzia Lemoinei Boule de Neige—A charming variety with large flowers, petals creamy white and of great substance, stamens yellow. \$1.00.

Deutzia Lemoinei Compacta—A variety much more dwarf than Lemoinei, flowers purest white and produced in such profusion as to form a mass of bloom. \$1.00.

Euonymus Bungeanus—A large shrub with bluish green foliage; fruit orange red, and very ornamental, appearing in great profusion in October, and remaining on the branches long after the leaves have fallen. \$1.00.

Ligustrum Regelianum—REGEL'S PRIVET—A fine hardy shrub, desirable when grown singly as a specimen, or in masses, or for hedges. 50 cents.

Ligustrum Ovalifolium Aureum—A distinct sport from the well-known California Privet. Foliage beautifully marked with yellow. \$1.50.

LEMOINE'S NEW PHILADELPHUS.

LIKE THE NEW DEUTZIAS, FROM THE SAME RAISER, THESE ARE OF DWARF, COMPACT HABIT AND FREE FLOWERING. ALL ARE DESIRABLE.

Philadelphus Avalanche—Flowers white, larger than those of Coronarius, round, possessing a sweet odor, and produced abundantly. \$1.00.

Philadelphus Boule d' Argent—Flowers large, very double, white, with a delicate scent. \$1.00.

Philadelphus Candelabre—Plant dwarf, and very floriferous, flowers white, very large—as large as those of Speciosissimus. \$1.00.

Globe-Headed Norway Maple

LEMOINE'S NEW PHILADELPHUS—Continued.

Philadelphus Coulteri—A dwarf shrub of erect habit, flowers large, solitary at the ends of the branches, pure white and of great substance. \$1.00.

Philadelphus Fantaisie—A distinct variety; very floriferous, flowers pure white, tinted with pale rose at the center, and with an agreeable odor. \$1.00.

Philadelphus Fimbriatus—A curious variety, branches arched, covered with large white flowers, deeply toothed. \$1.00.

Philadelphus Gerbe de Neige—Flowers very large, as large as those of *Speciosissimus*, and pure white, branches bend beneath the weight of flowers. \$1.00.

Hedge of *Rosa Rugosa* in Mount Hope Nurseries

Philadelphus Manteau d'Hermine—Flowers double or semi-double, creamy white, covering the branches; fine. \$1.00.

Philadelphus Mont Blanc—A charming variety, with very large fragrant flowers, produced in great abundance. \$1.00.

Philadelphus Pavillon Blanc—Flowers large, white; shrub vigorous. \$1.00.

Philadelphus Perle Blanche—Flowers very large, double, pure white; forms a dense shrub. \$1.00.

Rhamnus Alpinus—ALPINE BUCKTHORN—Of upright growth, attaining about six feet, desirable on account of its handsome foliage, which is of a dull rich green color. \$1.00.

Rhamnus Imeretina—A fine shrub, similar to the preceding, except that the habit of growth is spreading, foliage narrow and of a bright, shining green color. \$1.00.

NEW ORNAMENTAL TREES, SHRUBS AND PLANTS.

- Rhus Cotinoides**—A small tree, native of the Southern States, foliage very large, assuming beautiful tints in autumn. \$1.00.
- Rhus Typhina Laciniata**—CUT-LEAVED STAG HORN SUMACH—A picturesque form, with handsome leaves and deeply-cut leaflets. \$1.00.
- Sambucus Canadensis Acutiloba**—CUT-LEAVED AMERICAN ELDER—A beautiful new variety of the American Elder, with deeply and delicately cut dark green foliage. It is valuable on account of its beauty, hardiness, and rapid growth, and the ease with which it is transplanted. We consider it one of the best cut-leaved shrubs in cultivation. 35 cents.
- Sambucus Racemosus Tenuifolius**—A showy shrub of fine habit, with feathery, deeply cut foliage. \$1.00.
- Styrax Japonica**—A fine shrub from Japan, growing from eight to ten feet in height, foliage deep green, flowers pure white and fragrant, in simple racemes in early summer months. \$1.00.
- Styrax Obassia**—Another valuable shrub, or small tree, from Japan, attaining a height of twenty to thirty feet in its native country, flowers white and fragrant, and borne in terminal drooping racemes in great profusion in June and July. \$1.00.

NEW LILACS.

- Aline Mocquery**—SINGLE—Flowers dark purplish red, dwarf compact bush; fine. \$1.00.
- Alba Pyramidalis**—SINGLE—Flowers pure white, very free flowering. A strong grower. \$1.00.
- Colbert**—DOUBLE—Flowers purple. \$1.00.
- Comte de Kerchove**—DOUBLE—Flowers rose, large compact panicle. \$1.00.
- Congo**—SINGLE—Flowers very large, red. \$1.00.
- Crampel**—SINGLE—Flowers very large, bluish lilac, white center. \$1.00.
- De Jussieu**—DOUBLE—Flowers bluish lilac. \$1.00.
- Dr. Maillot**—DOUBLE—Flowers rosy lilac. \$1.00.
- Dr. Masters**—DOUBLE—Flowers clear lilac. \$1.00.
- Edouard Andre**—DOUBLE—Flowers clear rose. \$1.00.
- Erzherzog Johann**—SINGLE—Flowers light blue, very free flowering. \$1.00.
- Georges Bellair**—DOUBLE—Flowers large, red. \$1.00.
- Madame Casimir Perier**—DOUBLE—Flowers creamy white, a fine variety. \$1.00.
- Madame Leon Simon**—DOUBLE—Flowers very large, rosy lilac. \$1.00.
- Marc Micheli**—DOUBLE—Flowers lilac. \$1.00.
- Marechal de Bassompierre**—DOUBLE—Flowers deep carmine rose. \$1.00.
- Maurice de Vilmorin**—DOUBLE—Flowers blue, white eye. \$1.00.
- Negro**—SINGLE—Very large panicles, deep violet purple. \$1.00.
- Obelisque**—DOUBLE—Flowers white. \$1.00.
- Othello**—SINGLE—Flowers purplish red, panicles large. \$1.00.
- President Viger**—DOUBLE—Flowers bluish lilac. \$1.00.
- Prince de Beauvan**—DOUBLE—Flowers violet. \$1.00.

NEW LILACS—Continued.

Rabelais—DOUBLE—Flowers white. \$1.00.

Siberica—SINGLE—Flowers red, dwarf habit. \$1.00.

Volcan—SINGLE—Flowers large, ruby. \$1.00.

William Robinson—DOUBLE—Flowers violet. \$1.00.

Tamarix Kaschgarica—A handsome and distinct species with bluish foliage and carmine-rose flowers in September. \$1.00.

Viburnum Macrocephalum—One of the finest flowering shrubs, bearing immense cymes of pure white flowers in June. \$1.00.

CHINESE HERBACEOUS PAEONIES.

ALL DOUBLE.

Our collection of Herbaceous Pæonies is one of the finest in America. The following are among the choicest:

Ambroise Verschaffelt—Dark crimson. 50 cents.

Artemise—Rose color. A good shade. 50 cents.

Charles Verdier—Lilac rose, large handsome flower. 50 cents.

Chinese Herbaceous Pæony

Delachii—Crimson. One of the best. 50 cents.

Delicatissima—Light rose color. A delicate shade. 50 cents.

Edulis—Violet Rose. Very full and sweet. 50 cents.

Festiva Maxima—The finest white. \$1.00.

Fulgida—Crimson. 50 cents.

Humei—Purplish rose. Late. 50 cents.

Jeanne d'Arc—Rose color, straw colored center. 50 cents.

Louis van Houtte—Dark crimson. 50 cents.

Modeste—Deep rose. Best of its color. 50 cents.

The set of twelve for \$5.00.

NEW PAEONIES.

Marie Lemoine—Double white, marked with crimson. \$2.00.

Mont Blanc—Double, pure white. \$2.00.

Amazon—Double white. \$2.00.

THE CHOICEST VARIETIES OF HARDY PHLOX.

25 cents each. The set of 15 for \$3.00.

- Amazone**—Pure white. The finest of its color.
Belvedere—Salmon pink, crimson eye. Distinct.
Caran d'Ache—Bright carmine rose, extra.
Coquelicot—Dazzling red. One of the most remarkable.
Henri Murger—Pure white, carmine eye, extra.
La Vague—Beautiful silvery rose, crimson eye.
Le Vengeur—Light purple. A clear, distinct shade.
Le Siecle—Large florets, salmon pink. A beautiful variety.
Lothair—Large truss, salmon color, crimson eye. One of the finest.
Oberon—Deep purplish red.
Parachute—Purple. Blooms late.
Pantheon—Large florets, pink. A beautiful shade.
Pharaon—Light purple, white star-shaped center. Distinct and fine.
Queen—Pure white.
Richard Wallace—Large truss, white, with violet eye.

Trollius Caucasicus—ORANGE GLOBE—A fine new variety. Flowers very large, globular, and of a deep orange color; continues in bloom all summer. A valuable acquisition to the list of choice Hardy Border Plants. 50 cents.

Celastrus Articulatus—SYN. PANICULATUS-ORBICULATUS—A very vigorous climbing shrub from Japan, adapted for running over wild and rugged arrangements. It is most attractive in autumn when covered with fruit, which are of a light yellow color when ripe and which split open after the manner of the Euonymus, showing bright red seeds within. 50 cents.

Anemone Queen Charlotte—A new variety of the well-known Japan Anemone, and a novelty which we have no hesitation in recommending as one of the best of recent years. The flowers are very large, well-formed, semi-double, and of a beautiful rosy flesh color on the upper side and of darker shade underneath. They are produced on strong stems in great profusion in the autumn. The plant is vigorous, with large, luxurious foliage and very ornamental. 25 cents.

NEW ROSES.

MISCELLANEOUS ROSES.

NEW HARDY YELLOW ROSE—Soleil d'Or—GOLDEN SUN—This is the first of a new race of Roses, and the result of a cross between the well-known Persian Yellow and the Hybrid Perpetual Antoine Ducher. It is perfectly hardy. Its growth is robust, very vigorous, making plants three feet in height. The flowers are large, full and globular, measuring $3\frac{1}{2}$ inches across, and fragrant; buds conical shaped; color superb, varying from gold and orange yellow to reddish-gold, shaded with nasturtium red. \$1.00.

York and Lancaster—An interesting old variety, now being grown to some extent as a curiosity; flowers large, pink, striped or marked with white. \$1.00.

NEW RAMBLER ROSES.

Blush Rambler—In growth similar to Crimson Rambler, flowers single, perfectly round, very fragrant, and produced in large clusters; color a rich blush. A free bloomer. \$1.00.

Debutante—Flowers very double, in clusters, soft pink, fragrant. \$1.00.

Electra—Flowers semi-double, of a lemon yellow color, changing to a paler hue with age, and produced in great profusion from short side shoots; foliage rich deep green. \$1.00.

Helene—Flowers large, pale violet rose, with yellowish white center and borne in clusters. A strong grower and free bloomer; effective. 50 cents.

Leuchtstern—Flowers single, in large clusters, bright rose with a distinct white eye, like a Cineraria; foliage and habit resembling Crimson Rambler. A very distinct and valuable variety. 50 cents.

Philadelphia Rambler—An improvement on the famous Crimson Rambler, flowers being larger, much more double, and of a lighter crimson color. \$1.00.

Purple East—Flowers large, semi-double, rosy crimson and vivid purple; very vigorous. \$1.

Queen Alexandra—Flowers rosy pink, produced in clusters, a strong grower and free bloomer. \$1.00.

Rubin—Resembles Crimson Rambler, but has larger flowers of a deep red or ruby color. Very attractive. 50 cents.

Crimson Rambler Rose on side of house

The Lion—Flowers large, single, deep rich crimson, with white eye. A fine pillar rose. \$1.00.

Waltham Rambler—An attractive variety, bearing large panicles of rosy pink single flowers, slightly paler in the center, and showing the yellow stamens. A strong grower. \$1.00.

NEW HYBRID WICHURIANA ROSES.

Alberic Barbier—Flowers semi-double or double, in clusters, two to three inches in diameter; creamy white, canary yellow in center, darker yellow in bud; fragrant. A strong grower. \$1.00.

Dorothy Perkins—Flowers large for a rose of this class, very double, of a beautiful shell pink color, sweetly scented, and borne in clusters of thirty or forty. One of the best. 50 cents.

Edwin Lonsdale—Flowers double, pale lemon white, with a delicate fragrance. A profuse bloomer. \$1.00.

- Farquhar**—Flowers large, double, bright pink, in clusters, on long stems. \$1.00.
John Burton—Flowers medium size, very double, of a delicate pink or peach color, and fragrant. \$1.00.
Prof. C. S. Sargent—Described as being a perfectly hardy yellow climbing rose. \$1.00.
Robert Craig—Flowers yellow, shaded with apricot. One of the most desirable. \$1.00.
William C. Egan—Flowers large, very full, silvery pink, in clusters. \$1.00.
William F. Dreer—Flowers double, creamy white, bordered with bright rosy pink, blooms freely in clusters. \$1.00.
William K. Harris—Flowers pale flesh color, in clusters. \$1.00.
Wichuriana Rubra—Flowers single, bright scarlet, in large clusters, with orange red stamens. Beautiful and effective. \$1.00.
Rene Andre—Flowers semi-double, two to three inches in diameter; buds saffron yellow, tinted orange red, turning pinkish white; fragrant. A strong grower. \$1.00.

NEW HYBRID RUGOSA ROSES.

- Atropurpurea**—Single, very dark crimson. One of the best. \$1.00.
Conrad F. Meyer—Flowers large, 3½ to 4 inches across, bud well formed, color silvery rose; fragrant; very valuable on account of its hardiness and vigor. \$1.00.
 It has all the good points of the best of the rugosas with the color of Mme. Gabriel Luizet.—*The Garden*, London.
Mrs. A. Waterer—Large, semi-double, deep crimson, in clusters. Very fragrant, an excellent variety. \$1.00.

NEW HYBRID TEA ROSES.

- Bessie Brown**—Flowers very large, perfectly formed, of good substance, shell shaped petals; color creamy white; highly perfumed, growth vigorous and very free flowering. One of the most promising of the newer roses. \$1.00.
Duchess of Portland—Flowers large, full, perfect in form, pale sulphur yellow. Extra. \$1.00.
Flush o'Dawn—Flowers large, well formed, creamy white, pink center. Fine. \$1.00.
Irish Beauty—Flowers single, very large, often measuring five inches across, borne in clusters, color pure white, with bright golden anthers, deliciously fragrant. We consider this a most promising rose. \$1.00.
Irish Glory—Flowers single, silvery pink, fragrant. \$1.00.
Irish Modesty—Flowers single, coral pink, fragrant. \$1.00.
Lady Moyra Beauclerc—Flowers large, perfectly formed; bright rose. \$1.00.
Madame Caroline Testout—Flowers large and double, color clear bright rose, very sweet, resembling La France, but of more sturdy habit, very free flowering; one of the best roses. 50 cents.
Mildred Grant—Flowers large, silvery white, bordered with pink, extra. \$1.00.
Prince de Bulgarie—Flowers large and full, bud long, color rosy flesh; a vigorous grower, with fine foliage and very free blooming. \$1.00.
Queen of Edgely—A sport of the American Beauty, and an exact counterpart of that famous variety in every particular except that of color, which is a bright pink, approaching Mme. Caroline Testout and Bridesmaid. \$1.00.

NEW HYBRID PERPETUAL ROSES.

- Ben Cant**—Flowers large and finely formed, deep clear crimson, darker in the center, sweet scented, thoroughly perpetual; very promising. \$1.00.
 It is undoubtedly one of the finest Hybrid Perpetuals of its color ever raised.—*The Garden*, London.
Bob Davison—Flowers large, very full, of perfect form, dazzling scarlet, shaded crimson. \$1.00.
Frau Karl Druschki—Flowers very large, beautiful, pure white. This promises to be the best white Hybrid Perpetual yet introduced and one of the best novelties of recent years. \$1.00.

Of the varieties distributed in 1900, Frau Karl Druschki, although new to the analysis, takes up a position at No. 17. This is in itself a remarkable performance for any new rose, and only shows what a general favorite with exhibitors this beautiful pure white, H. P. has already become. Years ago we had to be content with Mme. Lacharme, which came out as a white H. P. in 1873, and since then we have welcomed in turn Mabel Morrison (1878), Violette Bouyer (1881), Merveille de Lyon (1882), White Baroness (1888),

ELLWANGER & BARRY'S ROSES AT PAN-AMERICAN EXPOSITION

Margaret Dickson (1891), and Marchioness of Londonderry (1893), but none nearly as warmly as we now welcome this sterling acquisition—Frau Karl Druschki. In the first place it is pure white, which none of its predecessors can lay claim to be, added to which it has a good, vigorous habit, and is, moreover, one of the freest flowering, if not the most continuous flowering, of all the H. P's. The raiser of this remarkable Rose—and all honor to him—is Peter Lambert of Trier, in Germany.—*The Garden*, London.

"It is universally admitted to be the best white Hybrid Perpetual in cultivation."

Unmistakably this Rose is the finest novelty of the last few years.—*The Garden*, London.

Milton—Flowers very large, full to the center, and of fine globular shape; bright carmine, the petals shaded brilliant velvety crimson, and reflexed with silver; growth vigorous. A fine garden rose. \$1.00.

Madame E. Levasseur—Flowers large, full, bright red, in the way of Ulrich Brunner, vigorous and free blooming. \$1.00.

Rosslyn—Flowers of a delicate rosy flesh color. A good rose. \$1.00.

Suzanne Marie Rodocanachi—Flowers of fine form, color soft pink. Not a new variety, but one which should be grown. \$1.00.

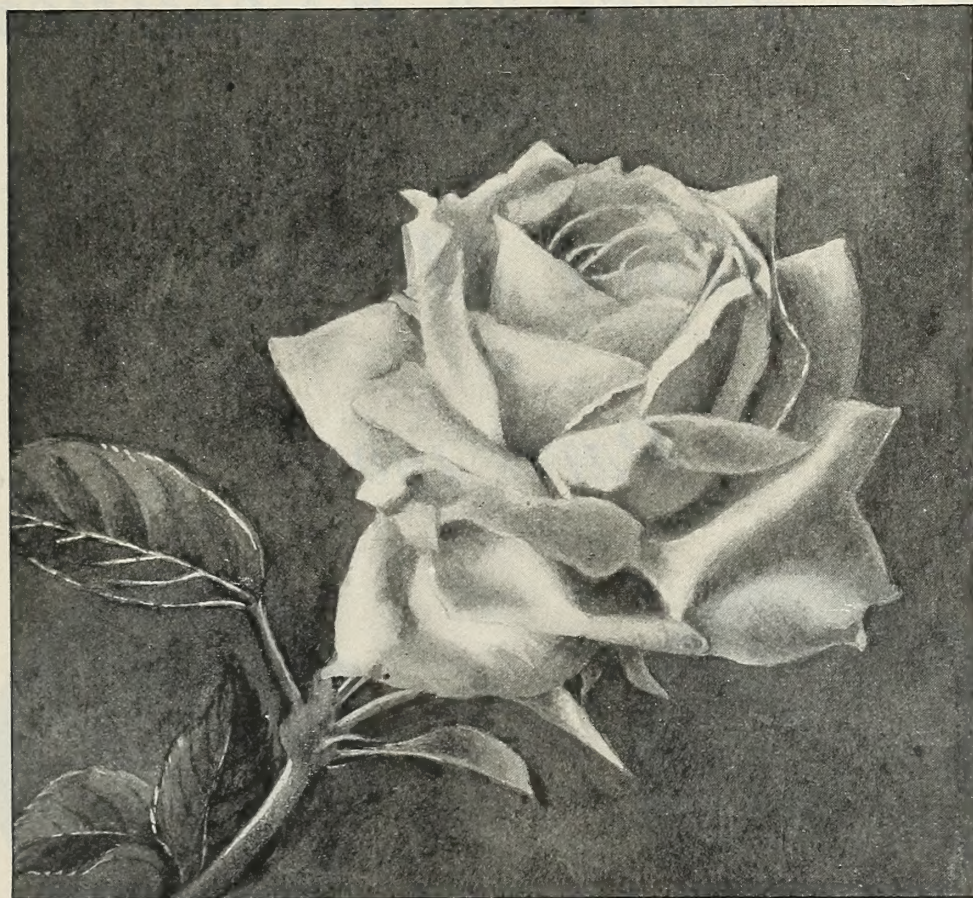

NEW POLYANTHA OR FAIRY ROSES.

THE FOLLOWING ARE VERY INTERESTING AND DESIRABLE.

Katharine Zeimet—Flowers small, very full, in clusters; pure white, fragrant. \$1.00.

Leonie Lamesch—Flowers medium size, bright copper red, with golden center. Distinct and beautiful. \$1.00.

Perle des Rouges—Flowers medium size, very full, borne in clusters, color velvety crimson. \$1.00.

Frau Karl Druschki (New Pure White Rose)

"It is universally admitted to be the best white Hybrid Perpetual in cultivation."
